# What Do You Know About Our Company?

NRA Alkalizers and Sweet & Young are distributed by a group of professionals including scientists, medical doctors and universities professionals who have in-depth knowledge of alkaline ionic water and alkaline ionic water ionizer. Since its inception in 1994, NRA Group of Companies has focused solely in alkaline ionic water and alkaline ionic water ionizer distribution and development - the longest serving in Malaysia, Singapore, Brunei and Indonesia.

# Our Vision

To provide alkaline ionic water  
whenever and wherever possible

# Our Mission

Alkaline ionic water is the healthiest drinking water

# Why Sweet & Young Water

Sweet & Young alkaline ionic water tastes **SWEET** and at the same time can slow down aging process by removing free radicals in our body and resulting in **YOUNG** looking inside out.

Free radicals are released in the process of oxidation where body cells are damaged resulting sickness and aging. Aging does not happen suddenly but it takes a long time to show aging sign most prominently a person's face. As alkaline ionic water contains ACTIVE HYDROGEN and SUPER OXIDATION properties, it can retard or slowdown the aging process of a person.

Long term consumption of this water will improve our immune system and our body will be able to fight against diseases.

# Our Logo

## The Shape

The shape assembles a water molecule which consists of hydrogen and oxygen. It connotes water as core business activity of Sweet & Young Co.

## The Colours

Blue: The original water colour  
Yellow: it represents the acidic environment where we live in.  
Purple: Substance to alkalize the environment.

## The Wordings

"Sweet & Young" means water that tastes naturally sweet and is rich in antioxidants. This combination supports better health, helping you feel and look younger—naturally.

# Best Seller Ionizer : Perfection

World first class ionizer that uses round discs non-membrane watercell. Perfection is an enhance ionizer from previous models that produces alkaline ionic water and acidic ionic water simultaneously. Manufactured in Taiwan, using Japanese and Korean Technologies, Perfection is able to produce high active hydrogen (-1000 ppb) ionized water that is extremely helpful in improving our immune system.
